\*For shares held at the end of the class period, losses are calculated by multiplying the shares held by the average share price during the 90 calendar days after the end of the class period. The price used is \$0.15 as of January 12, 2023 for common stock.

\*For Warrants held at the end of the class period, losses are calculated by multiplying the warrants held by the average price during the 90 calendar days after the end of the class period. The price used is \$0.04 as of January 12, 2023 for warrants.

Prices listed are rounded to two decimal places.
